Dear Mr. Donnigan:

Subject: New Phone Numbers for Crew Management

Effective at 10:00 AM on Wednesday, October 13, 2004, Crew Management will be upgrading our phone system. The 800 numbers will remain the same and the only change will be in the prefix. The new prefix for Crew Management will be (519) replacing the (997) prefix. This information has been sent to all TE & Y employees' and also communicated in various ways to ensure a seamless transition. Also a recording will be added to each number in case an employee misses the communication. Please share this information with all your organization.

Sincerely yours,

A handwritten signature in cursive script that reads "Michael Brazytis".
